STUDENT BEHAVIOR

Students are expected to respect both their fellow participants and the instructor to ensure a positive, productive, and enjoyable class environment. While socializing is welcome, students must be able to sit or stand attentively, listen to instructions, and demonstrate interest in completing the day's project. The goal is to foster a fun, creative experience where everyone can focus, participate fully, and complete their work.

FAQ

Q. *What ages do you teach?*

A. I have worked with a variety of ages and abilities. Most of my classes are mixed ages however I do try to keep the age range similar, however it is not always guaranteed as sometimes the time of the class or other accommodation will take precedent.

Q. *Do I have to stay with my child during class?*

A. I encourage parents/guardians to take the class time for themselves. I love working with the kiddos and giving them the opportunity to create freely and enjoy the social collaboration with other students. Due to the size of the space and class size it may not be possible for the parent to be in the classroom, however they can arrange to be close by and/or provide a contact phone number. If your child has any "special needs", please speak with me to make arrangements.

Q. *Do you follow a Home-school curriculum?*

A. No, however many of my projects may fulfill curriculum requirements. My classes are geared towards learning about art through exposure to a variety of mediums, techniques and projects. We experiment, practice, learn, create and have fun! I try to incorporate a bit of science, history and maybe sometimes a little math. Due to the mixed age and ability, not all projects are successful for everyone, but the goal is to have fun with the creative process and THERE IS NO SUCH THING AS BAD ART! They will all have their own individual outcome.

Q. *How much individual attention do you give the students?*

A. I try to give everyone the encouragement that I am able! I am there to share my passion for art and to instruct them and bring out their inner creativity! While I will follow along with the student and give feedback on their work, some kiddos rely on their own creativity. I am there to help you child enjoy this experience of creating and expression.

Q. *Do you give work outside of class?*

A. Sometimes I will encourage work outside of class or extend an activity/project to be completed at home. Occasionally I will provide a fun activity for them to do at home throughout the session. Most of the time it is optional, however sometimes the next class project will depend on the completion of the at home work in order to complete the in class project. I do try to give plenty of warning :-)

Please don't hesitate to reach out to me if you have any questions or concerns!
